Re: Updated Notice of Necessity and Offer to Purchase Easement

Dear Ms. Lewis,

The Cow Slough Water Control District ("District") has made a finding that an easement is necessary over a portion of the property described by the Hendry County Property Appraiser as Parcel 1 29 45 29 A00 0003.0200. (Parent Tract.") The easement area required is shown on the attached sketch (**Exhibit A**). The easement is for construction, improvement, access, maintenance, and drainage purposes of Lateral Canal L2-E, consistent with the District's Plan of Water Control.

It is the intent of the District to initiate Eminent Domain proceedings in order to secure the necessary easement, pursuant to the powers granted in Chapters 73, 74, and 298, Florida Statutes, as applicable. However, pursuant to Section 73.015, Florida Statutes, the District is hereby providing a good faith offer of compensation in exchange for your voluntary grant of the easement.

Attached is an updated appraisal report, prepared by Live Oak Analytics, LLC, (**Exhibit B**), on behalf of the District. That report found the full fee value of the property within the proposed easement area to be Nine Thousand Five Hundred Dollars (**\$9,500.00**), the same amount as the prior appraisal for the property.

The District hereby offers to purchase the easement for the construction and improvement of Later Canal L2-E, including rights of access, maintenance, and drainage purposes for:

Twelve Thousand Dollars (\$12,000)

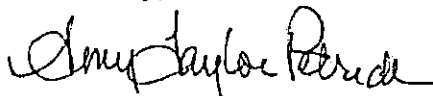

In addition to the market value of the property, this offer takes into account the District's intention to adjust its project designs to preserve your access to the well located on your property within the proposed easement area and the costs associated therewith.

This offer will be held open for a period of not less than thirty (30) days following your receipt of this notice, as provided by law. If this offer is not accepted within that time period, the District will commence Eminent Domain proceedings with the Circuit Court.

Attached herewith are the provisions of the Florida Statutes regarding the fee owner's rights and responsibilities under Sections 73.091, 73.092, 73.015(1)(b), 73.015(1)(c), and 73.015(4), Florida Statutes (**Composite Exhibit C**). Furthermore, the District will provide within 15 business days after a request by the fee owner copies to the extent prepared, of the right-of-way maps or other documents that depict the proposed taking; and copies to the extent prepared, of the construction plans that depict project improvements to be constructed on the property taken and improvements to be constructed adjacent to the remaining property, including, but not limited to, plan, profile, cross-section, drainage, and pavement marking sheets.

We look forward to your prompt attention to this matter.

Sincerely,

Amy Taylor Petrick

8) **ATTORNEY’S REPORT**

a) **CONSIDERATION OF LEWIS EASEMENT OFFER**

Mr. Diffenderfer stated that Mr. Kelly, Lewis’ attorney, and Ms. Petrick, CSWCD attorney, have been trying to communicate with one another, however; they have not yet connected. Mr. Diffenderfer said that it is his understanding that there might be another way to handle the easement issue.

Mr. Townsend said that CSWCD has struggled to finish the works of the District for several years. The final project was to extend the Lateral 2-E Canal to the east from the southeast corner of the Kozack property, the northeast corner of the Giddens property, the southwest corner of the Townsend & et al property, and the northwest corner of the Lewis Family property.

The Plan of Reclamation was to gain an easement of 30 feet wide from the Townsend & et al and the Lewis Family, each for a distance of about 1,805 feet in order for the District to have a 60 foot wide easement for drainage and access that would serve the three small landowners that are situated on the west side of State Road 29, as well as, the Townsend & et al property and the Lewis Family property.

Mr. Townsend said, as everyone is aware, the Lewis family has refused to grant the easement planned on their property and has asked an extremely high price for the easement. Mr. Townsend said that after CSWCD’s attorneys informed the District of the cost of taking the property through eminent domain, he made the decision to see if the drainage issue at a common corner, as described above, could be resolved another way.

Mr. Townsend said that he believes that he has solved the drainage issue at the intersection of the Kozak, Giddens, Lewis, and Townsend & et al, property. Mr. Townsend said that he has met with Mrs. Nicole Kozack and her husband, Manny, to discuss the issue, and they were both gracious and indicated that they are willing to cooperate with CSWCD.

Mr. Townsend said that after looking at the drainage needs of about 83.65 acres of land, not including the Lewis Family property, he believes that if Townsend & et al were to grant CSWCD a 40 foot easement, it will provide the District with enough space for a smaller ditch, as well as, an access road. The proposed easement from the Kozacks will be 40 feet wide, north to south, to match the easement that Townsend et al would grant, and would be 55 feet long, east to west.

Mr. Townsend said that the Kozacks have agreed to grant the easement free of charge to the District under the following conditions. 1) CSWCD will install the two culverts which the Kozacks have already purchased, to drain into the District’s L-2 Canal. 2) CSWCD will construct and maintain fences with locked gates along the South and East boundaries of the parcel of land covered by the easement. 3) CSWCD will pay the Kozack’s attorney fees for examining the proposed easement.

Mr. Townsend said that he has drafted a proposed easement, along with an aerial photo indicating an approximation of the easement layout.

Mr. Diffenderfer said that the Board needs to take formal action to resend its offer to the Lewis. Mr. Diffenderfer said, assuming CSWCD goes this way, there will be prepared paperwork to be noticed for the District's next month's meeting.

Mr. Townsend said that he will get an easement prepared.

Mr. Diffenderfer said that Ms. Foster, District Engineer, needs to confirm in writing, that the dimensions of the easement, ditch, etc. will be sufficient.

Ms. Foster said that she will review the proposed easement and work up a drawing to make sure that the new ditch will be sufficient.

Mr. Townsend made a motion to resend the District's offer to the Lewis' and to cease all negotiations. Mr. Giddens seconded the motion. The motion passed unanimously.

Mr. Diffenderfer said that he will prepare a written Resolution for Board action at the next scheduled meeting. Mr. Diffenderfer said that CSWCD cannot take action at this time because it was not noticed.

Mr. Diffenderfer reiterated, that an easement needs to be drafted, the district engineer needs to make a judgement, and that a decision will be made at the June 22, 2017, meeting.

Mr. Sherrod asked Ms. Foster to follow-up with a survey to present at the next meeting. Mr. Diffenderfer asked that he receive a copy of the survey and easement, prior to the meeting.

Ms. Foster said that the Forestry Division has been busy, but when time permits, they will burn Fye Pond, and they also gave a rate for mowing the area.

Ms. Foster said that the District needs to have the Forestry Department burn the area, and to regularly apply herbicides.

Mr. Townsend said that CSWCD has been given approval by SFMWD to clean the road right-of-way swale, approximately 150 yards, and that needs to get done. Mr. Townsend said that he will contact Mr. Scott Rogers, and said that it is an easy job and will only take several hours. Mr. Townsend said that the project needs to happen before the rains come.

Mr. Sherrod said that he will phone Mr. Crivellaro to come and apply herbicides, right away. Then the area needs to be burned.

c) **STATUS ON WATER SAMPLING**

Mr. Sherrod said that he will contact Short Environmental and start the water sampling.

Ms. Clement said that the draft budget is also on line for anyone to review.

Mr. Sherrod stated that the Supervisors are recommending an assessment rate of \$7.00 per acre for fiscal year 2017-2018, a decrease from the current assessment rate of \$9.00 per acre.

Mr. Townsend made a motion to approve the CSWCD draft budget for fiscal year 2017-2018 with an assessment rate of \$7.00 per acre. Mr. Giddens seconded the motion and the motion passed unanimously.

b) **EXECUTE 2017-2018 ASSESSMENT RESOLUTION** – Mr. Townsend made a motion to accept \$7.00 per acre as the assessment rate for fiscal year 2017-2018 for all lands located within the Cow Slough Water Control District and to execute the Assessment Resolution. d) **NEW BUSINESS – BOARD OF SUPERVISORS**

1) Mr. Fabry said that there were truck tires under the bridge on Church Road where the Townsend Canal crosses, and that the lock on their gate was cut, and items were stolen.

2) Mr. Kreiger said that he had phoned Ms. Foster regarding the collapsed, 24 or 36 inch culvert, right against the Duda fence, along the canal on the north boundary, which has collapsed. Mr. Kreiger said that he is asking permission for the culvert to not be replaced as it serves no function and they would like an open ditch.
